

# Styles and Pricing

---

All styles include full Ceremony and Reception coverage.

## Your wedding day packages include:

- **Multiple Cameras, Two Videographers**  
Several cameras are used and no detail is missed with our uncompromising views from the back, sides or front. Coverage is tasteful, discreet, and has received only positive feedback from clergy.
- **High-Definition Camera Technology**  
Only true broadcast quality high definition cameras are used to capture your day. These provide an outstanding level of clarity and detail.
- **Crystal Clear Audio**  
Readings, music and vows will be crystal clear as several discrete microphones are used. These small, state of the art microphones are placed on the groom, podium and clergy. During the editing process, they are mixed as needed.
- **The Reception Includes:**  
Wedding party intros, cake cutting, toasts and speeches, traditional dances and the bouquet/garter toss.

## Wedding Day Coverage... \$1450

Your Ceremony and Reception are recorded by two videographers. All unedited footage is placed onto DVDs (standard definition) or an external hard drive (high definition).

## Classic Style... \$2195

The assembly of your video will feature real segments of your day. Your wedding ceremony will be presented "as it happened" and little will be shortened or eliminated. Reception coverage will be presented in real time.

## Documentary Style... \$2845

This style takes the Classic Style one step further in the way it is presented. Your ceremony will be sensitively edited to create a seamless, flowing event. A personalized soundtrack will be interwoven through portions of the service, which adds more depth to the emotion captured on your special day. Reception coverage will use similar assembly techniques to present toasts, speeches and dancing. The final video is significantly shorter and more fun to view in comparison to our Classic Style.

## Cinematic Style... \$3795

This fresh approach and timeless style uses time-shifting techniques (where elements of the day are arranged to fit the feel of the music, mood, etc, verses keeping things in chronological order) to create a seamless and breathtaking movie that will be enjoyed through countless viewings. It features preparations, ceremony, post ceremony coverage, reception and highlights of your day creatively woven with images, natural sounds and

dramatic music to create the look, and feel of a Hollywood film. The length of the video is typically less than 40 minutes. In addition to capturing your day with traditional steady camera images, some segments will be recorded using dramatic camera techniques including elegant “floating camera” images and creative angles. You will also receive full length historical versions of your ceremony and speeches.

The Cinematic Style now comes with an archive hard drive and a High Definition media player, a \$325 value!
